What's New In?

Only excel can do it. EditExcel.Org Excel Editor is our editor for editing Excel files or sheet. It is free Excel editor for more than 14 years.It supports XML Paper Specification 1.2. It can work with all major versions of MS Excel. Now it is updated with new functions for editing data format in Excel 2007. You can also get this free Excel editor now. Data Formats Recovered. Adding data formats to existing or new workbooks. Performance is very good. Comment From Sharoon: I used this software for a few years. It worked fine. However I recently got it to open, but my controls are missing, and the reports pane doesn't have the data area. There is a check box for opening up the datasheet window, but when I click it I just get a blank screen. Anyone know what the problem is? Comment From Dita: In a little while, the free version will be limited to 100 records and 100 columns, because of MS changes in licensing. Version 2.1 works perfectly with Excel 97-2002 for both Mac and Windows.I didn't code up Version 2.1, but it appears that anyone wanting to use the software needs to purchase the registered version to add features/support. Efficient spreadsheet alternative to Excel. (11/25/02)Free Tier of MSDN Productivity Max comes with an excellent sub-license to download and install MSDN, one of the most powerful tools on the market. Its functionality is unique because it's not just a spreadsheet, it is a tools to create, or create again, very powerful look-up tables, formulas, queries, forms, and reports. It can easily be used by professionals in order to save time and money, or even by students to keep work distributed over a network. All the tools are very intuitive, easy to use. Also includes a free Excel Application in the download. Split your file into tabs Comment From Kevin: I've come to like it as a spreadsheet, but I would have liked a version of the tabs to autoload each time the Excel Application opens. If there's a way to put a button on a toolbar to set the tabs to open each time, I'd love to have it. Comment From kevin: I would also like to see a drop down menu when the Excel application is shut down to allow the user to choose which tabs to load when
