Tiny Shredder

Simple to use, fast and secure! Tiny Shredder is a small portable application, created to quickly erase files or entire partitions from removable drives, or from your hard drive. Just select the location you want to shred, and drag it on the right side of the window. After that, you have to pick the desired number of passes you want to achieve! The process takes less than a minute! There are no user settings or passwords, you just need to press the Erase button and that's it! Tiny Shredder key features: 1-pass mode: up to 3 GBytes: 2-pass mode: up to 1 GBytes: 3-pass mode: up to 0.5 GBytes 4-pass mode: up to 0.3 GBytes 5-pass mode: up to 0.1 GBytes 6-pass mode: up to 0.03 GBytes 7-pass mode: up to 0.01 GBytes 8-pass mode: up to 0.001 GBytes Deleting files on external media is as easy as that. Once you're done, the app will safely erase all those data you're trying to destroy! To keep the whole process as quick as possible, the application works by first detecting the connected drives, then it will list all the files or folders you want to clean from it. When you're ready to erase it, just select the file or folder you'd like and drag it on the right side of the window. Once all those steps are done, you just have to click on the Erase button and that's it! All your erased content is automatically deleted. If you need to repeat the entire process, just do that and you'll be able to see and erase your content as many times as you'd like! Faster data destruction? When I first launched the app, I was quite surprised by how quick and easy it is to use! The process for erasing files takes less than a minute, and I mean less than that! That's pretty much like you can't even feel it. I can't say I have doubts about this program, as it's just fast enough for the little number of passes I set, and the number of files I select. When it comes to securely erasing your data, or when it's about giving your computer the respect it deserves, Tiny Shredder might actually be
