May 9, 2021 - Since the synth sound contains 16 (10) waves, the F10 command jumps to the next synth sound. Example: F01 If wave frame 3, ..., 9 (p.p.) is being played, then F10 selects one of the channels on which the wave frame is currently being played. If all inputs for a channel are set to 1, then F11 starts the channel. Example: F11 If set to 1, then F12 starts the channel. If all inputs are set to 0, then F12 stops the channel. When you enter the F12 command, all sounds stop. Example: F12 Enter the F12 command only after all sounds have stopped. When you enter the F12 command, all sounds begin to sound.
