
Free Video Flip And Rotate 2.1.7.419 Portable [LINK]

select the object menu tab and choose flip horizontally. if you click on one of the corner handles and drag down and to the right, free transform will flip the letter vertically. if you click on one of the corner handles and drag up and to the left, free transform will flip it horizontally. if you want the object to rotate by 90 degrees, simply click on one of the four corner handles, pressing shift will rotate the object 180 degrees. if you're trying to flip an image, simply select the image and go to image > flip horizontal > ok > ok. repeat this process for vertical flips as well. now, let's scale the object a bit. go back to free transform and select the rectangle shape tool. click on one of the corner handles, hold down shift and drag inward to make the rectangle smaller. now hold down alt (win) / option (mac) as you drag the corner handles to make the rectangle taller. when you're done, simply press enter (win) / return (mac) to accept the change. you can rotate (change) your image 90 degrees in the following way: select the rectangle tool and click on one of the four corner handles. hold down shift and drag to the right to make the rectangle shorter. then hold down alt (win) / option (mac) as you drag the corner handles to the left to make the rectangle wider. press enter (win) / return (mac) to accept the change. now let's resize the rectangle from its center. click on one of the corner handles and while holding down the shift key, drag the corner handles outwards to make the rectangle taller. then hold down alt (win) / option (mac) as you drag the corner handles inwards to make the rectangle shorter. when you're done, press enter (win) / return (mac) to accept the change.
