Use words, phrases, and sentences well known to the audience. 2. be concise and precise. 3. use short words and sentences. 4. use words, phrases, and sentences that everyone understands, even people who are not experts in the field. 5. Use simple words with clear concepts and clear meanings, for example: the word "forgery" should imply "fraud," not "false signature." 6. Avoid words like "unstable," "harmful," "problem," and "danger." 7. Avoid phrases that are too long or complicated for people to understand. 8. Don't use words that can be interpreted ambiguously. 9. Avoid using words that can be misunderstood. 10. Avoid using words that may not be understood as intended. 11. avoid using words that may not be understood as intended. 12. Do not use "we," "us," or "their" as pronouns and predicates. Instead, use the pronoun "I" and the subjunctive "might have been." Avoid referring to yourself in the third person and referring to yourself by name. 13. Do not draw premature conclusions. 14. Don't tell people who are not in practice what they should do and how they should do it. 15. Don't tell people who are not technically inclined what they should do or how they should do it, because they won't understand.

With this software, you can create PDF documents from any available device. Acrobat Pro contains many interesting features that will help you in your work, and even if you are not an expert in working with documents, you will be able to work with the program using its intuitive tools. Like most modern software, Acrobat Pro allows you to view documents, create presentations, and edit PDF files right on your device. All these functions are available to you if you have a computer with an Internet connection. Thus, you can enjoy all the benefits of this program even if you do not have a computer at hand. What I like about this product is that all the functions and tools are very well thought out and organized. The interface is made as much as possible clear and convenient for the user. Of course you can't learn everything in 1 day, but I think you can and should start working with this product. Personally, when I just moved to the program, it took a long time to figure out how and what works in it. But after some time in the program, I began to understand how to work with it and what it takes. I realized that there are a lot of other programs, which is just not needed.
