Tomb Raider 2013 German Language Pack

Tomb Raider is now \$50 on Steam. When the boxed version releases in Japan later this month, it will cost roughly \$80. It's pretty obvious... but there's more! Tomb Raider: Ascension (or simply Raider Ascension) is a boxed version of the game that will be released in Japan starting September 16th. It has improved and enhanced graphical effects, 4K PS4 Pro support, and

improved performance on Xbox One X consoles, all for \$80. However, just like with Ascension, you can't get it on Steam. The game is not available for purchase on the Steam store. Still, Tomb Raider: Ascension is available for purchase on Nintendo eShop
